In the World of Warcraft beta test, the Sewer Beast was the largest tamable creature in the world, approximately the length of eight human characters lying down on the ground if lined up head to toe.. I have had this for a day i love this You must disable your Beast 2 07 Trojan DownloadUnlike most rare mobs, he doesn't wander after appearing, remaining stationary at whatever spawn point it happens to be.. Its only purpose is to serve a Hunter as a unique Pet It has a lengthy spawn timer and can be found at the ends of the Stormwind Canals, such as right outside Stormwind Keep.. He is also unique in that he is the only tameable mob in the entire game to regularly spawn inside a capital city.. Jan 30, 2010 Here is a download of beast 2 07 Should be virus free I cant be held responsible for anything that happened with the program.. After pet size normalization, he no longer has that distinction, but is still one of the least-seen hunter pets on most servers.. Our custom screensaver was also that some features, like Hangouts, easy-to-use additional features. cea114251b [Second cavalry patch](#)
