===== File Type: PDF Language: English Price: Free OS: Windows 7/8/8.1/10/XP/Vista Filesize: 0.9Mb I've tried to look for another one on the program but I can't find one anywhere else. For Androiddevs I have a problem with getting the tile to not appear. If I use the mini game idea I'm still getting a tile in the taskbar at the bottom of my screen. I know I've done it before and saved it as something else. Also I have a note on there that I tried the tile idea. I'm using a HTC 8S. I used this tutorial to get it to work. I've tried getting the tile to appear and it really doesn't want to work for me. I have a note on the post saying I tried the tile idea. I'm using an HTC 8S. Any help would be appreciated! this app is quite bad. last time i downloaded the trial version it kept asking me if i was connected to the internet so i told it yes. after that it wouldn't let me download apps other than the lock screen and camera and photos/videos option. it also had a plethora of errors on launch
